

The **Triple•Pet toothbrush's** three flexible heads open and close, maintaining the proper pressure and angle, cleaning all surfaces of the teeth with every stroke. The softer outer bristles protect against periodontal disease by massaging the gums. Fitting all exposed parts of the teeth, top, front and back, it is much easier to keep the brush on the teeth as the animal moves. The padded handle affords a better grip and protects the animal.

Triple•Pet All Natural Toothpaste is the only sugar-free all natural pet toothpaste available. Its tartar control formula is flavored with real vanilla. Pets love it and it provides sweet breath. The paste is sweetened with stevia, a natural herb. It has no detergent and no fluoride. It contains a touch of tea tree oil for healthy gums.

The brush and toothpaste are sold as a kit and as individual products.

Triple•Pet Odor eliminators immediately destroy odor on contact. They break up sulfur and ammonia compounds, so the odor does not come back. In addition to pets, the products eliminate odors from hard surfaces and fabrics. They are hypo-allergenic, non-toxic, odorless and do not stain. Odors are destroyed, not masked. Available in 16 and 32 oz bottles.

Bottled as **Triple Pet Skunk Insurance** because skunks come out at night, when the store is closed. A bottle of Skunk Insurance on the pet owner's shelf is true insurance. Fast acting, less than 15 minutes to a clean smelling pet. The odor does not come back even if the pet gets wet.

Bottled as a multi-purpose odor eliminator with the label **Triple Pet No Odor**. The product destroys the odors of urine, cat spray, feces, Skunk, hairballs, pet cages, vomit and other companion animal smells on contact.

A dab of **Triple•Pet All Natural Breath Freshener** in the pet's mouth immediately kills bad breath for most of a day. This breath freshener is sweetened with the herb Stevia, so it is sugar free. It is flavored with real vanilla and uses parsley seed oil to end bad breath for up to a day.

Hot spots? Minor cuts and abrasions? **Triple•Pet All Natural Skin Cream** has aloe vera, which soothes the irritation, so the pet does not pick at the wound. It uses organic zinc which attacks bacterial infection and l-lysine which attacks viral infection. It is a clear, odorless, tasteless, non-greasy gel which is absorbed almost immediately. This skin cream has had excellent results with pet eczema and dermatitis. Use it after surgery to keep the animal from picking at the wound and to promote rapid healing.

A small amount of the Triple•Pet drinking water additive helps remove plaque and tartar. It works on the pet's GI tract to deliver within 48 hours a fresh, healthy breath and to reduce pet waste odor. Plus it reduces the urine PH level which helps preserve grass. This is a continuous use product that delivers better smelling breath, better smelling litter boxes and better looking lawns! It is a human food grade, clear, odorless, tasteless liquid that is accepted by most cats, dogs and other small mammals.

The additive is packaged under the brand name of **Triple•Pet Plaque Off – Fresh Breath** for consumers concerned about their pet's breath and the removal of plaque and tartar. Plaque Off comes in 8 and 16 oz bottles.

The additive is packaged under the brand name of **Triple•Pet WasteEaze** for consumers concerned with pet waste odor management or preserving lawns. WasteEaze is available in 8, 16 and 32 ounce bottles.
