

WASTE EAZE™

Pet Waste Odor Management

Reduces Waste Odor
Freshens Breath
Keeps Lawn Green

Great for Dogs, Cats, Ferrets and other small mammals

EASY to Use! Just Add To Your Pet's Water!

Reduces both fecal and urine odors

Reduces litter box odors

Neutralizes urine, keeping grass green

Aids in the absorption of nutrients

WasteEaze™ is a continuous use product which you simply add to your pet's drinking water. Within 48 hours, pet urine and fecal odors will be greatly reduced, as well as brown grass stains caused by uric acid. As an added feature, WasteEaze's unique human food grade ingredients will leave your pet's breath smelling clean and fresh.

WasteEaze™ uses Yucca Schidigera, a natural Yucca plant extract, and Anthium Dioxide. These ingredients make WasteEaze™ especially effective. Yucca aids in the absorption of important nutrients, while lowering pH levels and reducing waste odors caused by ammonia based compounds. Anthium Dioxide acts as an oxidizing agent enhancing the exchange of oxygen at the cellular level, oxidizing hydrogen sulfide, and ammonia molecules in your pet's waste. When blended together, these ingredients neutralize acid, therefore reducing pet waste odors, and eliminating brown grass stains.

A clear, odorless, tasteless liquid accepted by all pets.
